

29th June 2026

Dear friends and neighbours

We want to thank everyone for contacting us, either through our two public exhibition events or via the website.

To date, we've received 84 feedback forms, as well as two letters from local resident groups. Our professional team are currently reviewing all of the feedback received and considering this alongside the wider design, planning and technical requirements that will form part of the planning application that we intend to submit later this summer.

We plan to come back to everyone with a list of frequently asked questions and answers on the key themes raised during the recent consultation period. These will also be published on the project website.

You can still view and download the design proposals shared at the May and June public events online at www.ymcacrouchend.org, and we will continue to review feedback forms submitted via the website.

There will be further opportunities to input and comment through the formal planning process both before and after we submit our planning application. The Local Planning Authority, Haringey Council, have confirmed that the YMCA proposals will be presented at their Planning Forum on the 15th July - this is a public meeting, held online, where you can find out more about the project and share your views on the proposals. The details of this forum will be publicised by the Local Planning Authority, and we will share the details of the meeting once the details are confirmed.

Once our planning application is submitted, you will also be able to register support or objections via the formal consultation process, which will be coordinated by the Local Planning Authority.

From the feedback received to date, we wanted to acknowledge and appreciate the overwhelming recognition of the importance of providing a safe space for homeless-experienced young people. We have been really heartened by the many stories shared by local residents of their experiences of the YMCA's services and outreach over our long history in Crouch End. We remain committed to providing ongoing and improved support for young people at our Tottenham Lane site for years to come.

We will be back in touch shortly.

Yours

YMCA Crouch End Team
